

1. ENGLISH STATION –

The security cameras are functioning. UI is in charge of security and monitoring. Three air quality monitors presently onsite. One is situated in an upwind location to the west and two others are located where there is currently some work being done. The work currently being done is in the main power plant building associated with the former boiler 13. So, one monitor is in the building and the other is just outside where any materials and workers are exiting. Levels are being measured by UI and its contractors. There has been some discussion of another public meeting, but no date has been set yet.

2. BUCKEYE WATERFRONT TERMINAL – sign wording

For environmental questions/concerns:

City of New Haven Environmental Health Section Main Line at 203-946-8174 or <https://seeclickfix.com/new-haven>

CTDEEP Air Complaint Line at 860-424-3436 or email deep.aircomplaints@ct.gov.

Buckeye Partners, L.P. Emergency Line at 866-514-8380 or www.buckeye.com

3. CIRCLE OF LIFE –

Circle of Life, LLC currently operates a clean wood processing volume reduction plant and construction and demolition (C&D) debris transfer station at its facility at 158/158R Middletown Avenue in New Haven, CT. Circle of Life will be holding a public meeting to discuss its proposal to construct a hoop building adjacent to the existing covered dome to allow better, more efficient removal of recyclable/recoverable materials from C&D waste in a covered area. The meeting will be held at the Fair Haven Branch of the New Haven Free Public Library on Thursday, September 8, 2022 at 6 pm. Remote access to the meeting will be available via Zoom. To get the Zoom meeting link, ID and Passcode, please contact Alison Soto at alison@aanastasio.com. Please contact me with any questions. Thank you.
