3. **Case 21C-040**

Received: May 5, 2021

Summary: The complainant alleged that she did not contact police, however officers responded to her home claiming they received a 911 hang up. That the same officer returned back to her home moments after speaking with her initially. That the officer asked to speak to her children to ensure everyone was safe, which was disruptive and unnecessary. Body-worn camera footage revealed that the officer was professional and appropriate after responding to a 911 hang-up call. The complainant later advised that she only made the civilian complaint because her husband is jealous and dislikes the police.

IA Determination: Unfounded – certified letter sent
