Hi everyone, as I'd mentioned, EPA New England (Region 1) will be holding a virtual resource forum on May 8th at 1pm-4pm where we will have presentations on the Community Change Grants Program and other funding opportunities unique to EPA New England. There will also be opportunities for folks to network with other organizations in CT. If you are interested, or know anyone who might be interested, you can register at this link (<https://forms.office.com/pages/responsepage.aspx?id=eCgFR53Gc0uxesXQDXVJuGQXlqbYdRdEtPg9PbC85vJUQTc3NTZJV05H5SkpER1kzNUpMWEtEUjdTSC4u>). And if you have any questions, you can reach out to me at white.keyana@epa.gov

Should we be urging passage of state legislation to limit 1,4-Dioxane (like the PFAS bill making its way through the CGA now)?

Barbara Masi

55:16

BM

Excellent question!

Laura Cahn

58:21

LC

Would it be appropriate for us to ask for 1,4-Dioxane testing money in the Community Change Grant?
What does the water treatment for 1,4-Dioxane involve?

Barbara Masi

59:35

BM

Testing for 1,4DX would be expensive.

Keyana White (She/Her/Hers)

01:02:43

KW

Thank you so much for letting me join tonight and for the presentation Iris! I'm going to have to sign off now but, again, please feel free to contact me by email (white.keyana@epa.gov)

I followed the links to the consumer shopping guide and do not see any options for "non detect" hand soaps nor dish soaps. Any suggestions?

Kathy Fay
