NEW HAVEN GREEN MAP

3rd Edition

Courtesy of Mayor John DeStefano, Jr., the New Haven Urban Resources Institute, the School of Forestry and Environmental Studies, and the New Haven City Plan Department

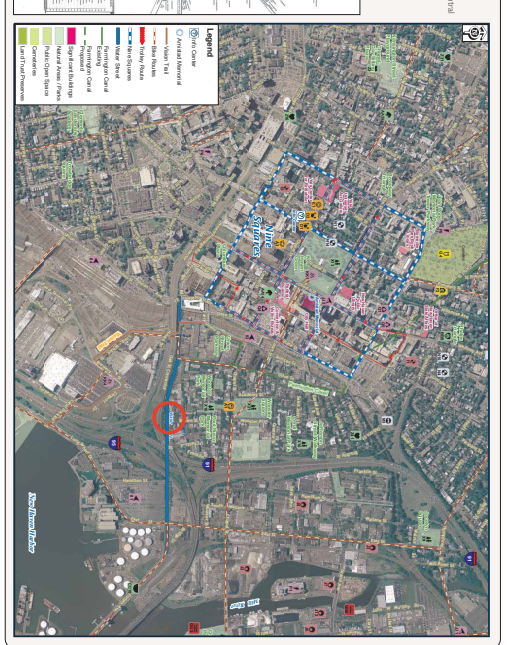

NEW HAVEN WATERSHEDS

Do you live in a watershed? The answer for everyone is "Yes." Watersheds are the land that drain water from cover or through a common water body. Every stream, lake, river and ocean has a range from a creek or brook to a river or stream to a large body of water. The watershed of the city of New Haven is divided into 11 watersheds, each with a unique character and a common goal: to protect and improve the quality of the water that flows from them. The city of New Haven is committed to protecting the watersheds that provide us with clean water.

DOWNTOWN NEW HAVEN PAST AND PRESENT

Downtown New Haven still embodies the city's history. The growth of the city's downtown is a testament to the city's rich history and the city's commitment to preserving its heritage. The city of New Haven is committed to preserving the city's historic architecture and the city's historic streets. The city of New Haven is committed to preserving the city's historic architecture and the city's historic streets. The city of New Haven is committed to preserving the city's historic architecture and the city's historic streets.
