Around I-91, spikes might be related to traffic jams caused by accidents.

Anstress Farwell

58:16

AF

Also, do we know when the harbor peaker plant is turned on? That would be good to know if we see a spike in the port.

Kathy Fay, NHS of New Haven, CT EEB

59:21

KF

What are we (City of New Haven) doing with this data at this point? Just observing for the time being?

Anstress Farwell

Anstress - thank you for pointing out that the leaf blower issue is an environmental justice issue. This is a great direction

Kathy Fay, NHS of New Haven, CT EEB

01:45:30

KF

I also like the idea of having a focused planning session with other stakeholders on education and outreach about leaf blowers, pesticides and other hazards to workersz
