

The Building Department is currently undertaking a large-scale Digitization Project to streamline our database to **YOU**. Which will allow our records to be accessible electronically!

In preparation for this undertaking:

Effective: February 11, 2019

Research will be conducted through **Freedom of Information Act requests**

(FOIA responses will take ~30 days)

We will NOT be able to accommodate walk-ins during research time.

Once complete, procedural updates will be posted when available.

We apologize for the inconvenience and we thank you for your patience during this exciting time!
